TRACE ELEMENTS, ZEOLITE AND PLANT EXTRACT

STRENGTHS

- **ZEORAME 30 S** GRADUALLY RELEASES ITS CONSTITUENTS AND INCREASE THEIR PERSISTENCE ON THE LEAVES
- PREVENTS AND TREATS TRACE ELEMENTS DEFICIENCIES BY SUPPLYING DIFFERENT NUTRIENTS (Mn, Zn, SiO<sub>2</sub>, F<sub>2</sub>O<sub>3</sub>, MgO, CaO, K<sub>2</sub>O...)
- ZEOLITHIC ROCK POWDER PROTECTS VEGETABLE ORGANS AND FRUITS FROM THERMAL SHOCKS AND BURNS (UVA AND UVB RAYS)
- USED ON LEAF AND CUTTING VEGETABLES (*BABY LEAF – FRESH CUT VEGETABLES*) AFTER EACH MOWING, IT IS ABLE TO HEAL THE INJURIES PRODUCED
- COPPER AND ZEOLITE ONCE APPLIED COVER THE FRUITS DISCOURAGING AND REPELLING **PESTS OVIDEPOSITION** CREATING A HOSTILE ENVIRONMENT FOR PHYTOPHAGS

## CHARACTERISTICS

**ZEORAME 30 S** is a product containing **Copper (Cu)** (*Oxychloride and Sulphate*) and microelements (**Mn, Zn**) with natural Zeolithic and Vegetal extract, neither treated nor chemically enriched.

Copper is an essential trace element for plants and plays an important role as it is involved in redox reactions that occur in metabolic processes and is part of antioxidant enzymes such as ferroxidase, essential for the transport of iron.

The "**Copper forms**" present in **ZEORAME 30 S** bind 70-80% to minerals (Mn, Zn, Silicates, Carbonates, K, P, Mg, Fe, Al) naturally contained in the Zeolites and **capable of persisting for a time greater on the leaves** allowing the product to act for a prolonged period and with a gradual release.

**The release of total metal copper is lower** than traditional salts and conventional treatments; all this for the total benefit of the plants and in compliance with the reduction of the quantities allowed in **Organic Agriculture (doses kg / ha of Cu)**.

**ZEORAME 30 S** is a formulation that in addition to the content of **Copper (Cu)** *Oxychloride and Sulphate*, **Manganese (Mn), Zinc (Zn)** is integrated with Chestnut extracts containing Tannins.

The tannins present in **ZEORAME 30 S** are produced by the metabolism of plants and act directly on the mechanisms of systemic resistance (**SAR-acquired / SIR-induced**).
